**\*All fences shall be so installed that the finished side faces the abutting property.**

**\*No fence shall be erected on the side or rear boundary lines of any lot which shall exceed five (5) feet in height, and no masonry wall shall be erected on any such side or rear boundary line which shall exceed three (3) feet in height. No fence shall be erected without a permit issued by the Building Department and no fence shall be more than five (5) feet in height.**

**\*If there is a pool on the property the fence can ONLY have one (1) gate and it must be self closing and self latching.**

**\*No fence shall be erected on any lot on the street line of that lot or at any point between the street line of that lot and front building line of the improvement on that lot without the prior approval of the Board of Trustees on proper application made to such Board, and no fence now existing on the street line of any lot or at any point on that lot between the street line of that lot and the front building of the improvement on that lot shall be replaced without proper approval of the Board of Trustees on proper application made to such Board. This section recognizes that a corner lot has two front building lines, and this section is intended to prohibit the erection of a fence at any point between either such front building line and the adjacent street line without the approval of the Board of Trustees on proper application made to such Board.**
