

Ruby Slipper Amur Maple

Ruby Slippers Amur Maple brings a distinctive touch, texture, and color to your landscape. This tree thrives in urban environments and adapts to various soil types, making it ideal for planting beneath utility lines. In the fall, its lush, dense rounded canopy of finely textured green leaves transforms into brilliant shades of reds, and oranges. During the summer, the canopy will dazzle with pairs of bright red samaras, resembling a charming pair of ruby slippers. This tree will light up your landscape throughout all seasons, adding a refined backdrop of color and texture.
